

Marc Angelo G. Primo

Software Developer

Brgy. Catimon, Guimba, Nueva Ecija

+639955947434 | mrcprimo.github.io/portfolio/ | primomarcangelo@gmail.com

Skills

Skilled in programming with a solid background in Laravel (PHP), Python, Java, JavaScript, and C++. Experienced in creating and improving MySQL queries and functions. Familiar with working on NoSQL databases and using APIs to connect different systems or services. Also well-versed in Microsoft Office tools like Word and Excel for writing reports and analyzing data.

Education

2021-2025	Central Luzon State University Bachelor of Science in Information Technology (Cum Laude)
2019-2021	Bartolome Sangalang National High School Science, Technology, Engineering, and Mathematics (With high honors)
2016-2019	Bartolome Sangalang National High School (With honors)

Work experiences

February 17, 2025 – May 26, 2025 – Data Science and Artificial Intelligence Laboratory (DSAIRe Lab), Department of Information Technology, Central Luzon State University, Science City of Muñoz, Nueva Ecija – **Internship** - Built a survey builder using Laravel and NoSQL, similar to Google Forms. Users could create and answer surveys, and the system provided data analytics to help understand the responses.

April 2025 - **Freelancing** – Worked as a freelance developer and built a scholarship system using Laravel (a PHP framework). This project involved handling user registrations, managing applications, and organizing scholarship data efficiently.

January 2025 – **Freelancing** – Created a weather monitoring and forecasting system using Laravel. The system tracks precipitation levels and automatically sends email alerts to users when certain conditions or thresholds are met.

June 18, 2024 - July 15, 2024 – **Office clerk** – Department of Agriculture - Local Government Unit – Guimba, Nueva Ecija – data encoding

October 27, 2023 - December 7, 2023 – PeeNam iPhone and Samsung – Science City of Muñoz, Nueva Ecija - Developed an e-commerce system for the compliance in the course software engineering, products could be listed, managed, and sold online. The system allowed customers to browse items, place orders, and track purchases.

June 15, 2023 - July 13, 2023 – **Office clerk** – Municipal Planning and Development Office – Local Government Unit – Guimba, Nueva Ecija – computer system troubleshooting and utilizing my Microsoft Office

June 20, 2022 - July 15, 2022 – **Office clerk** – Department of Labor and Employment, Public Employment Service Office – Guimba, Nueva Ecija – document organization and troubleshooting computer systems.

Recent Projects
